Why choose Norlift for Service?

MATERIAL HANDLING & CONSTRUCTION EQUIPMENT SERVICE & MAINTENANCE

We'll get it fixed fast

Our average response time is under
2 hours, the fastest in the
Inland Northwest.

We'll get the job done right

We have JCB & Toyota-trained
technicians with decades of experience.

We can save you money

Because our technicians are fast,
experienced, and have easy access to factory
parts, we can often do the work for less than
it would cost to do yourself – even if you have
in-house mechanics.

Used Genie GL-4

The Genie® GL-4 Material Lift is a material handling lift that can be used as a hand truck, forklift or dolly and makes loading and lifting heavy materials easy. Ideal for shipping/receiving, loading shelves, HVAC installation and repair and more. Several available!

Did you know it's often possible to repair a damaged upright without dismantling your racking system?

Norlift now offers rack repair kits for uprights. We can come in, cut the bottom portion of your uprights out and put in a prefabricated piece making your upright secure, strong and safe once again. Keep your warehouse safe with WorldRev® from Worldwide Material Handling and Norlift.
